Airport Control Tower #2 (AD-CTR2-0A)

Thank you for purchasing the Airport Control Tower Kit #2. I know you will be pleased with the final product. Before you get started, here is a list of what you'll need:

- Paper. For best results I recommend using a High Quality Matte Photo Paper for the Warehouse building exterior pages and Premium Glossy Photo Paper for the Cargo Building; the thicker the paper, the better. Regular Card stock is an option.
- X-Acto knife
- Cutting board
- Metal ruler
- Stick or cement glue
- Pen
- Latest version of Adobe Reader (you can download it here: http://www.adobe.com/products/acrobat/readstep2.html)

For complete assembly instructions, please refer to the following video:
